INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of the City of Decatur Board of Education Decatur, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **City of Decatur Board of Education** (the "District") as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Decatur Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Decatur Board of Education as of June 30, 2020, and the respective changes in financial position, and the budgetary comparison for the General Fund, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 10, Schedule of Proportionate Share of the Net Pension Liability for TRS Plan on page 53, Schedule of Contributions for TRS Plan on page 54, Schedule of Proportionate Share of the Net Pension Liability for PSERS Plan on page 56, Schedule of Proportionate Share of the Net OPEB Liability on page 58, and the Schedule of Contributions for OPEB Plan on page 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Decatur Board of Education's basic financial statements. The combining and nonmajor fund financial statements and schedules and continuing disclosure section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, and the accompanying schedule of expenditures of federal awards, as required by the Uniform Guidance, as listed in the table of contents, are presented for purposes of additional analysis and are also not a required part of the basic financial statements.

The combining and nonmajor fund financial statements and schedules, schedule of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and nonmajor financial fund statements and schedules, schedule of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The continuing disclosure section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2021, on our consideration of the City of Decatur Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Decatur Board of Education's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia February 23, 2021

The discussion and analysis of the City of Decatur Board of Education's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the complete financial statements, with footnotes, to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2020 are as follows:

- Total net position decreased from approximately \$75.8 million in 2019 to approximately \$70.4 million in 2020, a decrease of approximately \$5.4 million. This decrease is due primarily to an increase in instructional expenses as a result of increases in salaries and staffing.
- Total revenues increased from approximately \$82.5 million in fiscal year 2019 to approximately \$87.4 million in fiscal year 2020, an increase of approximately \$4.9 million, primarily from increases in property taxes of \$3.5 million as a result of increases in assessed property values. Also contributing to the increase were increases of approximately \$1.7 million in operating grants and contributions due largely to increase in QBE revenues as a result of enrollment growth and training and experience (T&E).
- Total expenses increased from approximately \$79.9 million in fiscal year 2019 to approximately \$92.8 million in fiscal year 2020, an increase of approximately \$12.9 million. This increase was the result of an increase in staff to accommodate enrollment growth, a step increase of approximately 2.5% for qualifying employees, a cost of living adjustment of 2% for all qualifying employees and an increase to the employer portion of contributions to the Teachers' Retirement System (TRS).
- Among the major funds, the General Fund has approximately \$76.5 million in revenues and approximately \$77.9 million in expenditures and \$1.2 million in other financing sources in fiscal year 2020. Fund balance for the General Fund decreased by \$186,078.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements comprise three components: 1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information related to the District's pension plan and other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all of the District's assets, liabilities, deferred outflows of resources, and deferred inflows of resources with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In contrast, fund balance reports only those assets, deferred inflows of resources, and liabilities that primarily have an impact on short-term financing decisions. Fund balance (specifically, unassigned fund balance) is a measure of available financial resources. Net position reports all assets, all liabilities, and certain deferred outflow and inflows of resources regardless of their relevance to near-term financing decisions. Net position should be understood as a measure of net worth rather than a measure of available financial resources.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two (2) categories: governmental funds and fiduciary funds.

Governmental Funds

Most of the District's activities (instruction, administration, maintenance, and student transportation) are reported in governmental funds, which focus on how money flows in and out of those funds and balances left at fiscal year-end are available for spending in future periods. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The governmental fund activities may be financed with property taxes, Quality Basic Education (QBE) State formula aid, and federal funds.

Fiduciary Funds

The District is the trustee, or fiduciary, for assets that belong to others, such as club and class funds and payroll withholding funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

FINANCIAL ANALYSIS FO THE SCHOOL SYSTEM AS A WHOLE

Provided on the following page is a Statement of Net Position for 2020 and 2019 as well as a Statement of Activity for 2020 and 2019. These statements reflect a net position for fiscal 2020 of approximately \$70.4 million, which represents a decrease over fiscal year 2019 in the amount of approximately \$5.4 million.

Governmental Activities

The net cost of governmental activities reports the total and net cost of major District activities: instruction, pupil and improvement of instructional services, school and administrative services, maintenance and operations, transportation, and others.

Net cost of services is the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost shows the financial burden on the District's taxpayers by each activity. The total cost of governmental services in fiscal year 2020 was approximately \$92.8 million. Users of the District's programs financed approximately \$4.8 million of the costs. Federal and state grants, subsidized programs and contributions financed \$39.1 million of the cost. Property taxes and sales taxes financed approximately \$35.5 million and approximately \$5.4 million, respectively, of the District's costs for fiscal year 2020. The remaining balances of \$8.0 million was funded by other revenues up to \$2.6 million and the remaining deficit resulted in a decrease in net position of approximately \$5.4 million as of fiscal year ended June 30, 2020.

Revenues

For fiscal year 2020, the District's total revenues increased by 5.94% or approximately \$4.9 million. Property tax revenues increases \$3.5 million primarily from increases in assessed property values. Operating grants and contributions increased approximately \$1.7 million primarily from increases in QBE allotments.

Expenses

The District's total expenses increased approximately \$12.9 million or 16.13% as compared with fiscal year 2019. Instruction expenses increased approximately \$7.5 million or 15.77% and is comprised of increases in salaries and staffing of \$5.6 million; increases in pension allocations of \$2.9 million and is offset by decreases in non-capitalizable asset purchases of \$900 thousand. School administration expenses increased \$1.07 million or 12.67% and maintenance and operation expenses increased \$1.2 million or 19.29%, respectively, because of increases in salaries and pension allocations. Student transportation expenses increased \$643 thousand or 38.80% because cost related to new buses. Food Service expenses decreased \$316 thousand due to reduced operations from the Covid-19 pandemic.

COMPARISON OF FUND LEVEL FINANCIAL STATEMENTS

The District ended fiscal year 2020 with a strong fund balance in its governmental funds. The combined balance of all governmental funds including the District-wide Capital Projects Fund is approximately \$25.7 million. The ending fund balance represents approximately 28.5% of total expenditures. Of the governmental fund balance, approximately \$7.9 million is restricted for capital projects and approximately \$11.2 million has been assigned by the Superintendent to cover a projected fiscal year 2021 budget deficit.

On the following page is a comparison of combined fund level financial statements on a modified accrual basis. Total revenues have increased approximately \$8.8 million or 11.03%. State funds have increased \$4.6 million or 12.99% as state QBE allotments have increased. Local and other funds have increased \$4.6 million, primarily from increases in local property taxes as assessed property values continue to increase.

Total expenditures have decreased approximately \$4.9 million or 5.14%. Instruction expenditures and support service expenditures have increased \$5.5 million (12.16%) and \$3 million (13.21%), respectively, as a result of salary increases and increases in staffing. Capital outlay expenditures decreased \$13.5 million or 68.95% as prior fiscal year expenditures included major capital projects primarily the new Talley Elementary school.

General Fund Budgetary Highlights

In developing the fiscal year 2020 budget, the Administration of the District understood and planned for the following: appropriate student/teacher ratios, adequate fund balance reserves, and expenditure controls. As a result, the budget included an increase in staff and benefits as a result of the increase in enrollment. Planning for these and other unforeseen challenges are necessary in this time of enrollment growth. A complete analysis of the budgeted and actual results can be found on page 17 of this report.

The City of Decatur Board of Education budgeted, as amended, for a use of fund balance of \$1.25 million but used significantly less, \$186,078. This variance is a result of higher than expected revenues from miscellaneous sources such as school activities, financed purchases, increased State QBE funding due to increased enrollment, and controlled spending.

General Fund

The total fund balance of the General Fund was \$17.3 million, which represents a slight decrease of \$186,078 over the previous fiscal year's ending fund balance. For fiscal 2020, the Superintendent has assigned fund balance of approximately \$11.2 million to cover a projected fiscal year 2021 budget deficit bringing the unassigned fund balance down to approximately \$6.2 million or approximately 8% of fiscal year 2020 expenditures. This is a significant decrease over prior fiscal years as the Schools Board deals with the effects of the COVID-19 pandemic.

District-wide Capital Projects Fund

The District uses capital projects funds to account for school construction and improvement projects. Since 1997, sales tax proceeds have become the primary funding source as a result of the approval by DeKalb County voters in March 1997 of a five-year special purpose local option sales tax (SPLOST). Collections of the tax began on July 1, 1997 and it has been renewed by the voters four subsequent times. The current SPLOST that began July 2017 is expected to generate a total of \$650,057,000 of which City Schools of Decatur could receive up to \$30,000,000 over its life. The sales tax is proportionately distributed to DeKalb, Atlanta Independent School System (within DeKalb County) and City of Decatur Board of Education based on full time equivalent (FTE) of students. The District-wide Capital Projects Fund had expenditures of approximately \$7.6 million for the fiscal year ended June 30, 2020 and a fund balance of \$7.8 million.

Capital Assets and Debt Administration

Capital Assets

Capital assets increased from approximately \$166.2 million in fiscal year 2019 to approximately \$166.7 million in fiscal 2020. The new Talley Street Elementary School which incurred the majority of construction costs in fiscal 2019 was completed in fiscal 2020. The District added 15 new buses during fiscal year 2020 to replace the older buses. For more information on capital assets, see footnote 6.

Long-Term Debt and obligations

At the end of June 30, 2020, the District has long-term liabilities in the form of certificates of participation, City of Decatur intergovernmental payable, capital leases, net pension liability, net OPEB liability, and compensated absences. For more information on long-term debt, see footnote 7.

Factors Bearing on the District's Future

We are pleased that City Schools of Decatur continues to enjoy a strong financial position. We have seen a positive tax digest growth over the last few years and remain hopeful that it will continue. Educational funding from the State of Georgia is expected to remain at a conservatively low level, but we have had an increase in funding due to the District's increased enrollment.

The District remains confident in our ability to maximize resources so that we may provide the best possible educational experience for all our students.

Requests for Information

This financial report is designed to provide a general overview of the City of Decatur Board of Education's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Decatur Board of Education, Finance Director, 125 Electric Avenue, Decatur, Georgia 30030.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

| Net change in fund balances - total governmental funds | | \$ (432,820) |
|--|-----------------|-------------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period. Capital outlay | \$ 5,063,891 | |
| Depreciation expense | (3,919,637) | 1,144,254 |
| In the statement of activities, only the gain or loss on the disposal of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in the net position differs from the change in fund balance by the net book value of assets disposed. | | (640,344) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds. | | (1,000,189) |
| Transfers between governmental funds are reported in the governmental funds but are eliminated on the government-wide statement of activities. | | |
| Transfers in | \$ (227,120) | |
| Transfers out | 227,120 | - |
| The issuance of long-term debt, (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | | |
| Principal retirement: | | |
| Financed purchases | \$ 1,319,005 | |
| Certificates of participation | 715,000 | |
| Amortization of premiums | 28,106 | |
| Accrued interest | 10,635 | |
| Issuance of financed purchases | (1,472,652) | 600,094 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | | |
| Net change in deferred outflows and inflows of resources related to pensions and | | |
| net pension liability | | (4,631,112) |
| Net change in deferred outflows and inflows of resources related to OPEB and | | |
| net OPEB liability | | (406,817) |
| Change in compensated absences | | (30,558) |
| Change in net position - governmental activities | | \$ (5,397,492) |

| Total liabilities | \$ | 258 | | |

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Decatur Board of Education (the "District") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District was established under the laws of the State of Georgia and operates under the guidance of a five-member school board elected by the voters and a Superintendent appointed by the School Board. The District is organized as a separate legal entity and provides public education throughout the city of Decatur, Georgia, excluding DeKalb County, Georgia.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. For the fiscal year ended June 30, 2020, the District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current fiscal year. Property taxes are recognized as revenue in the period for which they were levied if they are collected within sixty (60) days of year end. All other revenues are considered to be available when they are collectible within one hundred eighty (180) days of year end. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

The State of Georgia reimburses the District for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent fiscal year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each fiscal year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the District recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

In the governmental fund financial statements, property taxes, sales taxes, intergovernmental revenue, and interest are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year if they meet the appropriate recognition criteria. In accordance with GASB Statement No. 33, "Accounting and Financing Reporting for Non-exchange Transactions", the corresponding assets (receivables) in non-exchange transactions are recognized in the fiscal year in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all the eligibility requirements have been met, or when resources are received, depending on the revenue source. This is when the District gives or receives value without directly receiving or giving equal value in exchange including property taxes, local option sales taxes, intergovernmental grants and donations. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *District-Wide Capital Projects Fund* accounts for the proceeds of a one percent Special Purpose Local Option Sales Tax, intergovernmental revenue (bond proceeds) from other governments and certificates of participation. Funds are used for: building renovations; land and building acquisitions; and, construction of new educational facilities.

Additionally, the District reports the following fund types:

The *Agency Fund* is used to account for school activity funds that the District holds for others in an agency capacity.

The nonmajor governmental funds include the following funds:

The **School Food Services Fund** accounts for the monies and commodities received from Federal and State governments and the School Food Service's cafeteria sales for the purpose of maintaining the District's breakfast, lunch, and snack programs.

The *Lottery Programs Fund* accounts for the Pre-K program administered by the District in which the revenues are legally restricted by external parties.

The *Federal Programs Fund* accounts for various Federal grant monies received by the District in which the revenues are legally restricted by external parties.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgets

Formal budgetary accounting is employed as a management control device for the General Fund, Special Revenue Funds, and District-wide Capital Projects Fund of the District. The governmental funds' budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual operating budgets are adopted for the General Fund and Special Revenue Funds each fiscal year through passage of an annual budget ordinance and amended as required. The District adopts project length budgets for the District-wide Capital Projects Fund. During the fiscal year ended June 30, 2020, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules.

All unencumbered budget appropriations lapse at the end of each fiscal year.

E. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The local government investment pool, "Georgia Fund 1", created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of fiscal year-end and the District's investment in the Georgia Fund 1 is reported at fair value. The District considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

Increases or decreases in the fair value during the year are recognized as a component of interest income.

F. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds."

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. On-Behalf Payments

The State of Georgia makes certain retirement plan payments on behalf of the District for its employees. The District records these payments as both a revenue and expenditure in the General Fund. The total of the onbehalf payments for the fiscal year ended June 30, 2020 was \$91,113.

H. Inventory and Prepaid Items

Inventories of the School Food Services Fund are stated at cost using the first-in, first-out method. Donated food commodities are recorded at fair value. The District utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenditures when used rather than when purchased.

Payments made to vendors for services that will benefit periods beyond June 30, 2020 are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditures/expense in the fiscal year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable, as this amount is not available for general appropriation.

I. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, vehicles, and equipment is depreciated using the straight line method over the following estimated useful lives:

| Asset | Years |
|--------------------------------------|-------|
| Equipment and vehicles | 5-20 |
| Land improvements | 15 |
| Buildings and buildings improvements | 50 |

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Long-Term Obligations

In the government-wide financial statements long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, the face amount of debt issued and any related premium, is reported as other financing sources. Issuance costs, whether or not withheld from actual proceeds, are reported as debt service expenditures. The long-term obligations of the District at June 30, 2020 were compensated absences, financed purchases, net pension liability, net OPEB liability, and certificates of participation which are discussed later in these footnotes as other obligations.

K. Deferred Inflows/Outflows of Resources

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has several types of items that qualify for reporting in this category aside from those items related to pensions and OPEB.

The governmental funds report unavailable revenues from property taxes and other revenues as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. Additionally, the governmental funds balance sheet and the government wide statement of net position will report unearned property tax revenues as a deferred inflow of resources as the amount represents property taxes which have been received or are receivable as of the balance sheet date but which are meant to fund expenditures for the upcoming fiscal year and thus will be recognized as revenue in the period for which they have been levied.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Deferred Inflows/Outflows of Resources (Continued)

Finally, the District also has deferred outflows and inflows of resources related to the recording of changes in its net pension liability and its net other postemployment benefits (OPEB) liability. Certain changes in the net pension liability and the net OPEB liability are recognized as pension and OPEB expenses over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the District's actuary which adjust the net pension liability and the net OPEB liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of Plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension and OPEB expenses over the expected remaining service lives of Plan members. Changes in actuarial assumptions which adjust the net pension liability and the net OPEB liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension and OPEB expenses over the expected remaining service lives of Plan members. The difference between projected investment return on pension and OPEB investments and actual return on those investments is also deferred and amortized against pension and OPEB expenses over a five year period.

L. Compensated Absences

Compensated absences represent obligations of the District relating to an employee's rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Accumulated unpaid sick leave costs are not vested and are not accrued, but are recognized as expenditures or expenses, when paid. Accumulated unpaid vacation costs are accrued when incurred in the government-wide financial statements.

Regular full-time twelve month custodial and maintenance staff earn vacation leave with pay from ten to fifteen days per fiscal year based on years of continuous service with a maximum accumulation of twenty days. Upon separation from the District, employees may be paid for unused vacation leave up to a maximum of twenty days at the current rate of pay.

M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Fund Equity (Continued)

Fund Balance – Generally, fund balance represents the difference between the assets, liabilities, and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education through the adoption of a resolution. Likewise, fund balances that have been committed cannot be used for any other purposes unless the Board of Education removes the commitment of these funds through formal action of the adoption of a resolution.

Assigned – Fund balances are reported as assigned when amounts are constrained by the District's intent to be used for the specific purposes, but are neither restricted nor committed. Through resolution, the Board of Education has authorized the Superintendent to assign fund balances.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The District reports positive unassigned fund balance only in the General Fund. The Board will strive to maintain an unassigned fund balance of between 4% -15% based upon annual budgeted expenditures. The balance may be drawn down in the event of an unexpected decrease in the property tax digest or a reduction to state funding.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the District's policy to use fund balance in the following order: (1) Committed, (2) Assigned, and (3) Unassigned.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Fund Equity (Continued)

Net Position – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by retainage (contracts) payables and by the outstanding balances of any borrowing used (i.e., the amount that the District has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted. The District applies restricted resources first when an expense is incurred for purposes for which both are available.

N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting fiscal year. Actual results could differ from those estimates.

O. Pensions

TRS and PSERS - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Retirement System (TRS) and the Public School Employees Retirement System (PSERS) and additions to/deductions from TRS's and PSERS's fiduciary net position have been determined on the same basis as they are reported by TRS and PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from the School OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. LEGAL COMPLIANCE – BUDGETS

Budgetary Data. The budget is a complete financial plan for the District's fiscal year and is based upon careful estimates of expenditures together with probable funding sources. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds is prepared by fund, function, and object. The legal level of budgetary control was established by the Board at the aggregate level. The budget for the General Fund was prepared in accordance with U.S. generally accepted accounting principles.

The budgetary process begins with District administration presenting an initial budget for the Board's review. The Board provides the administration with revenue, expenditure, and fund balance guidelines, and receives public comments. Administration makes revisions as necessary and prepares a tentative budget for the Board's approval. After approval of this tentative budget by the Board, such a budget is advertised at least once in a newspaper of general circulation in the locality. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final school budget. This final budget is then submitted, in accordance with provisions of the Quality Basic Education Act, OCGA 20-2-167 (c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the fiscal year. All unexpended budget authority lapses at fiscal year-end.

The Superintendent is authorized by the Board to approve adjustments of no more than five percent of the amount budgeted for expenditures in any budget function for any fund. The Superintendent shall report any such adjustments to the Board of Education. If expenditure of funds in any budget function for any fund is anticipated to be more than five percent of the budgeted amount, the Superintendent shall request board approval for the budget amendment. Any position or expenditure not previously approved in the annual budget and that exceeds \$25,000 shall require Board approval unless the Superintendent deems the position or purchase an emergency. In such case, the expenditure shall be reported to the Board at its regularly scheduled meeting. Under no circumstance is the Superintendent or other staff person authorized to spend funds that exceed the total budget without approval by the Board of Education.

For fiscal year ended June 30, 2020, the following departments had excesses of actual expenditures over appropriations:

General Fund departments:

| \$ 336,320 |
|---------------|
| 68,883 |
| 41,937 |
| 53,841 |
| 6,151 |
| 1,215,205 |
| 611,859 |
| \$ |

These over expenditures were funded by greater than anticipated revenues and by available fund balance.

NOTE 3. DEPOSITS AND INVESTMENTS

Credit risk. State statutes authorize the District to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. Government; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any corporation of the U.S. Government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

At June 30, 2020, information on the credit risk and interest rate risk related to the District's investments (which are classified as cash equivalents) is disclosed as follows:

| Investment | Maturities | Credit rating | Fair Value | | |
|----------------|-------------------------|---------------|------------|------------|--|
| Georgia Fund 1 | 38 day weighted average | AAAf | \$ | 16,508,602 | |

Interest rate risk. Interest rate risk is the risk that changes in interest rates may adversely affect an investment's fair value. Since the price of a bond fluctuates with market interest rates, the risk that an investor faces is that the price of the bonds in a portfolio will decline if market interest rates rise. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the District does not disclose its investment in the Georgia Fund 1 within the fair value hierarchy.

Custodial Credit Risk - Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) amounts that exceed standard depository insurance limits are required to be collateralized either (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program.

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk - Deposits (Continued). As of June 30, 2020, the financial institution holding some of the District's deposits is a participant in the State of Georgia Secure Deposit Program, which is administered by the Office of the State Treasurer, requires participating banks holding deposits of public funds to pledge collateral at varying rates depending on the tier assigned by the State. As of June 30, 2020, the District's cash accounts were insured and/or collateralized as defined by GASB Standards.

NOTE 4. RECEIVABLES

Receivables at June 30, 2020 for the District's individual major funds and nonmajor governmental funds in the aggregate, are as follows:

| | Nonmajor | | | | | |
|-----------------|--|---|---|--|--|---|
| | D | istrict-wide | Go | vernmental | | |
| General | Caj | oital Projects | | Funds | | Total |
| | | | | | | |
| \$ 4,311,049 | \$ | 3,931,924 | \$ | 411,570 | \$ | 8,654,543 |
| 5,390,444 | | - | | - | | 5,390,444 |
| 87,939 | | 245,066 | | | | 333,005 |
| 9,789,432 | , | 4,176,990 | | 411,570 | | 14,377,992 |
| (33,795) | | <u>-</u> | | <u>-</u> | | (33,795) |
| \$ 9,755,637 | \$ | 4,176,990 | \$ | 411,570 | \$ | 14,344,197 |

NOTE 5. PROPERTY TAXES

The City of Decatur, Georgia bills and collects property taxes for the District. Property taxes are levied on property values assessed as of January 1. The tax levy is divided into two billings. The first billing is mailed April 1, and the second billing is mailed no later than October 20. The billings are considered due upon receipt by the taxpayer; however, the billings are considered delinquent on June 1 and December 20. After these dates, penalties and interest may be assessed by the City.

As discussed in Note 1, the District records deferred inflows of resources related to the property tax levies. At June 30, 2020, the District reports a deferred inflow of resources - unearned revenue of \$16,458,302 for the 2020 tax year digest collections which are budgeted to fund fiscal year 2021 operations as reported in both the balance sheet for governmental funds as well as the government-wide statement of net position. Furthermore, in the General Fund, the District reports a deferred inflow of resources - unavailable property taxes of \$2,179,172 which consists of the 2019 tax year digest (and prior fiscal year taxes) not collected within 60 days of June 30, 2020.

NOTE 6. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2020 is as follows:

| | Beginning | | | | Ending |
|---|------------------|--------------|--------------|--------------|--------------|
| Governmental activities | Balances | Additions | Deletions | Transfers | Balances |
| | | | | | |
| Capital assets, not being depreciated | | _ | _ | _ | |
| Land | | | - \$ | - \$ | 16,365,498 |
| Construction in progress | 17,329,502 | 2,615,384 | = | (18,937,084) | 1,007,802 |
| Total | 33,695,000 | 2,615,384 | | (18,937,084) | 17,373,300 |
| | | | | | |
| Capital asset, being depreciated | | | | | |
| Land improvements | 414,715 | - | - | - | 414,715 |
| Buildings and building improvements | 143,222,873 | 110,773 | - | 18,937,084 | 162,270,730 |
| Equipment and vehicles | 9,672,064 | 2,337,734 | (1,242,715) | - | 10,767,083 |
| Total | 153,309,652 | 2,448,507 | (1,242,715) | 18,937,084 | 173,452,528 |
| Less accumulated depreciation for: | | | | | |
| Land improvements | (130,579) | (25,187) | _ | _ | (155,766) |
| Buildings and building improvements | (15,353,031) | (2,999,415) | _ | _ | (18,352,446) |
| 0 1 | | | 602 271 | - | |
| Equipment and vehicles | (5,329,079) | (895,035) | 602,371 | | (5,621,743) |
| Total _ | (20,812,689) | (3,919,637) | 602,371 | - | (24,129,955) |
| Total capital assets being depreciated, net _ | 132,496,963 | (1,471,130) | (640,344) | 18,937,084 | 149,322,573 |
| Governmental activities capital assets, net | 5 166,191,963 \$ | 1,144,254 \$ | (640,344) \$ | - \$ | 166,695,873 |

Depreciation expense was charged to functions/programs of the District as follows:

| Governmental activities: | |
|--|-----------------|
| General administration | \$ 502,471 |
| School administration | 2,947,609 |
| Business administration | 3,467 |
| Maintenance and operation of plant | 230,000 |
| Student transportation | 159,937 |
| Central support services | 5,219 |
| Food services operation | 70,934 |
| Total depreciation expense - governmental activities | \$ 3,919,637 |

NOTE 7. LONG-TERM DEBT AND OBLIGATIONS

Long-term debt and obligations activity for the fiscal year ended June 30, 2020 is as follows:

| | Beginning | | | | Ending | Ending Due Within | | | Due in More |
|-------------------------------------|-------------------|------------------|-----------------------|---|-------------|--------------------------|-----------|----|--------------|
| | Balances | Additions | Reductions | | Balances | | One Year | | han One Year |
| Governmental activities: | | | | | | | | | |
| Certificates of participation: | | | | | | | | | |
| Series 2010 | \$ 8,230,000 | \$ - | \$ (330,000) \$ | S | 7,900,000 | \$ | 340,000 | \$ | 7,560,000 |
| Series 2014 | 16,715,000 | - | (385,000) | | 16,330,000 | | 400,000 | | 15,930,000 |
| Unamortized premiums | 425,809 | - | (28,106) | | 397,703 | | - | | 397,703 |
| Certificates of participation, net: | 25,370,809 | - | (743,106) | | 24,627,703 | | 740,000 | | 23,887,703 |
| Financed purchases from | | | | | | | | | |
| direct borrowings | 7,390,702 | 1,472,652 | (1,319,005) | | 7,544,349 | | 716,370 | | 6,827,979 |
| Net pension liability | 53,582,222 | 19,096,285 | (7,778,831) | | 64,899,676 | | - | | 64,899,676 |
| Net OPEB liability | 46,121,443 | 5,189,998 | (5,886,217) | | 45,425,224 | | - | | 45,425,224 |
| Compensated absences | 125,177 | 109,596 | (79,038) | | 155,735 | | 116,801 | | 38,934 |
| Governmental activities | | | | | | | | | _ |
| long-term liabilities | \$ 132,590,353 | \$ 25,868,531 | \$ (15,806,197) \$ | 3 | 142,652,687 | \$ | 1,573,171 | \$ | 141,079,516 |

For governmental activities, the net pension liability, the net OPEB liability, compensated absences, and some financed purchases are generally liquidated by the General Fund. The certificates of participation and other financed purchases were liquidated by the District-wide Capital Projects Fund.

NOTE 7. LONG-TERM DEBT AND OBLIGATIONS (Continued)

Certificates of Participation. In April 2014, the District entered into a lease agreement with the Georgia Municipal Association, Inc. ("GMA"). The funding of the lease was provided by the issuance of \$18,120,000 Certificates of Participation Series 2014 by GMA. The proceeds from the Certificates were used to finance the acquisition and construction of school buildings and facilities for the District and the costs incurred in connection with the execution and delivery of the certificates. The lease agreement with GMA provides that the District owns their portion of the assets and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in annual installments of \$335,000 to \$1,060,000 beginning in November 2014 and ending May 2044. Interest is payable at rates of 2.00% to 5.25%.

| Fiscal Year Ending, June 30 | Principal | Interest | Total |
|--------------------------------|------------------|---------------|-----------------|
| 2021 | \$ 400,000 | \$ 708,488 | \$ 1,108,488 |
| 2022 | 415,000 | 692,488 | 1,107,488 |
| 2023 | 430,000 | 675,887 | 1,105,887 |
| 2024 | 450,000 | 658,687 | 1,108,687 |
| 2025 | 465,000 | 640,688 | 1,105,688 |
| 2026-2030 | 2,665,000 | 2,869,700 | 5,534,700 |
| 2031-2035 | 3,355,000 | 2,181,375 | 5,536,375 |
| 2036-2040 | 4,155,000 | 1,382,769 | 5,537,769 |
| 2041-2044 | 3,995,000 | 433,075 | 4,428,075 |
| Total | 16,330,000 | 10,243,157 | 26,573,157 |
| Plus: Unamortized | | | |
| premium | 397,703 | | |
| Total | \$ 16,727,703 | | |

NOTE 7. LONG-TERM DEBT AND OBLIGATIONS (Continued)

Certificates of Participation (Continued). In January 2010, the District entered into a lease agreement with the Georgia School Boards Association, Inc. (the "Association"). The funding of the lease was provided by the issuance of \$10,295,000 Taxable Certificates of Participation, Build America Bonds, Direct Payment, Series 2010 by the Association. The lease agreement with the Association provides that the District owns their portion of the assets and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in annual installments of \$275,000 to \$625,000 beginning in May 2013 to May 2037. Interest is payable at rates of 2.70% to 5.55%.

| Fiscal Year Ending, June 30 | Principal | | Interest | | Total |
|--------------------------------|-----------|-----------|----------|-----------|------------------|
| 2021 | \$ | 340,000 | \$ | 477,225 | \$ 817,225 |
| 2022 | | 350,000 | | 459,715 | 809,715 |
| 2023 | | 365,000 | | 440,990 | 805,990 |
| 2024 | | 375,000 | | 421,463 | 796,463 |
| 2025 | | 390,000 | | 401,400 | 791,400 |
| 2026-2030 | | 2,190,000 | | 1,640,168 | 3,830,168 |
| 2031-2035 | | 2,665,000 | | 903,105 | 3,568,105 |
| 2036-2037 | | 1,225,000 | | 116,550 | 1,341,550 |
| Total | \$ | 7,900,000 | \$ | 4,860,616 | \$ 12,760,616 |

In accordance with the Disclosure Certificate, the District is required to provide continuing disclosures to outside parties. In the event of a failure of the District to comply with any provision of the Disclosure Certificate, the participating underwriter or any beneficial owner may take such actions as may be necessary and appropriate, including seeking specific performance by court order, to cause the District to comply with its obligations under the Disclosure Certificate. A default under the Disclosure Certificate shall not be deemed a default or an event of default under the Resolution and the sole remedy under the Disclosure Certificate in the event of any failure of any party to comply with the Disclosure Certificate shall be an action to compel performance.

NOTE 7. LONG-TERM DEBT AND OBLIGATIONS (Continued)

Financed purchases from direct borrowings. The District has entered into an agreement for the purpose of leasing a public works building. Under the terms of the agreement, the District will assure that the payments of principal and interest on the capital lease are made in a timely manner through January 2046. The total annual payment is \$170,247. The outstanding balance of this capital lease payable to the City of Decatur as of June 30, 2020 is \$1,464,955.

The District has entered into two (2) agreements for buses and under the terms of the agreement the District will assure that the payments of principal and interest are made in a timely manner through August 2021 and July 2028. The total annual payments are \$10,912 and \$138,453, respectively. The outstanding balance of these capital leases payable as of June 30, 2020 are \$1,097,722.

The District has entered into a capital lease transaction as the lessee with the City of Decatur. The agreement executed between the District and the City called for the City to construct a central administration facility for the District who, in turn, will be responsible for paying the City amounts equal to the debt service requirements on the Urban Redevelopment Agency Revenue Bonds, Series 2013B. The total annual payments (principal and interest) to be paid to the City of Decatur will range from \$394,231 to \$401,975. The outstanding balance of this capital lease payable to the City of Decatur as of June 30, 2020 is \$4,130,000.

The District entered into an agreement for a Canon copier and under the terms of the agreement the District will assure that the payments of principal and interest are made in a timely manner through June 2021. The total annual payment is \$95,768. The outstanding balance of this capital lease payable as of June 30, 2020 is \$92,727.

The District entered into three agreements for computer equipment with Dell and under the terms of the agreements the District will assure that the payments of principal and interest are made in a timely manner through June 2022. The total annual payments are \$193,309 for Dell Lease 001, \$125,092 for Dell Lease 002, and \$90,000 for Dell Lease 003. The outstanding balance of this capital lease payable as of June 30, 2020 is \$758,945.

NOTE 7. LONG-TERM DEBT AND OBLIGATIONS (Continued)

The following is an analysis of assets under capital leases as of June 30, 2020:

| <u>Assets</u> | Activities |
|---|---------------------------------|
| Building improvements, software, and buses (acquisition costs) Less accumulated depreciation | \$ 10,556,393 (1,347,437) |
| Net depreciable capital assets under leases | \$ 9,208,956 |

Annual depreciation of these assets is included in depreciation expense.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020 are as follows:

| Fiscal Year Ending June 30, | Sovernmental Activities |
|---|-----------------------------|
| 2021 | \$ 1,177,114 |
| 2022 | 1,077,042 |
| 2023 | 660,583 |
| 2024 | 658,133 |
| 2025 | 657,933 |
| 2026-2030 | 3,245,589 |
| 2031-2035 | 2,311,624 |
| 2036-2040 | 802,593 |
| 2041-2045 | 851,235 |
| 2046 | 170,247 |
| Total minimum lease payments | 11,612,093 |
| Less: amount representing interest | (4,067,744) |
| Present value of minimum lease payments | 7,544,349 |
| Less: current liabilities | (809,097) |
| Total due in more than one fiscal year | \$ 6,735,252 |

NOTE 8. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Interfund balances as of the fiscal year ended June 30, 2020 are as follows:

| Receivable Fund | Payable Fund | Amount | | |
|-----------------------------|-----------------------------|-----------------|--|--|
| Capital Projects Fund | General Fund | \$ 1,027,195 | | |
| Capital Projects Fund | Nonmajor governmental funds | 412,428 | | |
| Nonmajor governmental funds | General Fund | 270 | | |
| | | \$ 1,439,893 | | |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers as of the fiscal year ended June 30, 2020 are as follows:

| Transfers In | Transfers Out | Amount | _ |
|-----------------------------|---------------|------------|---|
| Nonmajor governmental funds | General Fund | \$ 227,120 | |

NOTE 9. RETIREMENT PLANS

Teachers Retirement System of Georgia (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained at www.trsga.com/publications.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers Retirement System (SRBP-TRS). SRPB-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRPB-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

Benefits Provided. TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions. Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A Section 47-3-63, the employer contributions for certain full-time public shool support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6% of their annual pay during fiscal year 2020. The School District's contractually required contribution rate for fiscal year ended June 30, 2020 was 21.14% of the annual School District payroll. The School District's contributions to TRS were \$8,735,830 for the fiscal year ended June 30, 2020.

NOTE 9. RETIREMENT PLANS (Continued)

Teachers Retirement System of Georgia (TRS) - Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the District by the State of Georgia for certain public school support personnel. The amount recognized by the District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$ 64,899,676 |
|--|------------------|
| State of Georgia's proportionate share of the net pension liability associated with the District | 119,125 |
| Total | \$ 65,018,801 |

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability in the amount of \$64,899,676. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2019. At June 30, 2019, the employer proportion was 0.301821%, which was an increase of 0.013157% from its proportion measured as of June 30, 2018.

NOTE 9. RETIREMENT PLANS (Continued)

Teachers Retirement System of Georgia (TRS) - Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued): For the fiscal year ended June 30, 2020, the District recognized pension expense of \$13,366,942 and revenue of \$37,666 for support provided by the State of Georgia for certain support personnel. At June 30, 2020, the District reported deferred outflows of resources and defered inflows of resources related to pensions from the following sources:

| | red Outflows of Resources | Deferred Inflows of Resources | | |
|---|----------------------------------|----------------------------------|-----------|--|
| Net difference between projected and actual earnings on pension plan investments | \$ - | \$ | 1,545,459 | |
| Differences between expected and actual experience | 3,658,077 | | 19,241 | |
| Changes in proportion and differences between District contributions and proportionate share of contributions | 4,244,780 | | 8,896 | |
| Changes of assumption | 6,227,971 | | - | |
| District contributions subsequent to the measurement date | 8,735,830 | | | |
| Total | \$ 22,866,658 | \$ | 1,573,596 | |

The District's contributions subsequent to the measurement date of \$8,735,830 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal year ending June 30: | |
|-----------------------------|------------------|
| 2021 | \$ 5,140,856 |
| 2022 | 1,692,706 |
| 2023 | 3,071,703 |
| 2024 | 2,651,967 |
| Total | \$ 12,557,232 |

NOTE 9. RETIREMENT PLANS (Continued)

Teachers Retirement System of Georgia (TRS) - Continued

Actuarial Assumptions. The total pension liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases 3.00 - 8.75%, including inflation

Investment rate of return 7.25%, net of pension plan investment expense,

including inflation

Postretirement Benefit Increases 1.50% semi-annually

Postretirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service retirements and dependent beneficiaries. The RP-2000 Disable Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for death after disability retirement. There is a margin for future mortality improvement on the tables used by the System. Based on the results of the most recent experience study adopted by the Board on Novmber 18, 2015, the numbers of expected future deaths are 8-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB. Effective with the June 30, 2018 valuation, the long-term assumed rate of return on assets (discount rate) was changed from 7.50% to 7.25%, and the assumed annual rate of inflation was changed from 2.75% to 2.50%.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 through June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table on the following page:

NOTE 9. RETIREMENT PLANS (Continued)

Teachers Retirement System of Georgia (TRS) - Continued

| Asset class | Target allocation | Long-term expected real rate of return* |
|---|-------------------|---|
| Fixed income | 30.00% | (0.10)% |
| U.S. large equities | 51.00 | 8.90 |
| U.S. small equities | 1.50 | 13.20 |
| International developed market equities | 12.40 | 8.90 |
| International emerging market equities | 5.10 | 10.90 |
| Total | 100.00% | |

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount Rate. The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

| | | 1% | | Current | | 1% |
|---------------------------------------|----|-------------------------|----|-----------------------|----|------------------|
| | | Decrease (6.25%) | | discount rate (7.25%) | | Increase (8.25%) |
| District's proportionate share of the | _ | | | | | |
| net pension liability | \$ | 105,351,169 | \$ | 64,899,676 | \$ | 31,634,176 |

NOTE 9. RETIREMENT PLANS (Continued)

Teachers Retirement System of Georgia (TRS) - Continued

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publically available at http://www.trsga.com.

Public School Employees Retirement System (PSERS)

Plan Description. PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The PSERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits Provided. A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions. The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

NOTE 9. RETIREMENT PLANS (Continued)

Public School Employees Retirement System (PSERS) (Continued)

Pension Liabilities and Pension Expense. At June 30, 2020, the District did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the state's proportionate share of the net pension liability associated with the District is as follows:

State of Georgia's proportionate share of the Net
Pension Liability associated with the District \$510,603

The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The state's proportion of the net pension liability associated with the District was based on actuarially determined contributions paid by the state during the fiscal year ended June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$157,464 and revenue of \$157,464 for support provided by the State of Georgia.

Acturial Assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75% Salary increase N/A

Investment rate of return 7.30%, net of pension plan

investment expense, including inflation

Postretirement benefit increases 1.50% semi-annually

Postretirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

NOTE 9. RETIREMENT PLANS (Continued)

Public School Employees Retirement System (PSERS) (Continued)

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014, with the exception of the assumed investment rate of return. Subsequent to the June 30, 2017 Measurement Date, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset class | Target allocation | Long-term expected real rate of return* |
|---------------------------------------|-------------------|---|
| Fixed income | 30.00% | (0.10)% |
| U.S.large stocks | 46.20 | 8.90 |
| U.S. small stocks | 1.30 | 13.20 |
| International developed market stocks | 12.40 | 8.90 |
| International emerging market stocks | 5.10 | 10.90 |
| Alternatives | 5.00 | 12.00 |
| Total | 100.00% | |

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10. RISK MANAGEMENT

The District is exposed to various risks of loss for claims associated with torts; theft of, damage to and destruction of assets; errors and omissions; natural disaster; workers' compensation, and unemployment compensation. The District participates in the Georgia School Boards Association Risk and Insurance Management System (the "System"), a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, motor vehicle liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the System. The District pays an annual premium to the System for its general insurance coverage. Additional coverage is provided through agreements by the System with other companies according to their specialty for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual harassment, molestation, and abuse) and automobile risks. Payment of excess insurance for the System varies by line of coverage.

The District is self-insured with regard to unemployment compensation claims. The District accounts for its claims within the General Fund with an expenditure and a liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. The District unemployment claims during fiscal years ended June 30, 2020 and 2019 totaled \$0 and \$0, respectively.

The following describes the changes in the claims liability over the last two (2) fiscal years:

| | | | Currei | ıt Year | | | | |
|--------|----------------------------------|------|-----------|---------|-----|------|-------------|-----------|
| | Beginning of | f | Claim | s and | | | End o | of Fiscal |
| Fiscal | cal Fiscal Year Changes in Claim | | | | ms | Year | Year Claims | |
| Year | Claims Liabil | lity | Estimates | | Pai | d | Lia | bility |
| 2020 | \$ | | \$ | - | \$ | - | \$ | - |
| 2019 | | _ | | _ | | _ | | _ |

The District participates in the Georgia School Boards Association Workers' Compensation Fund (the "Fund"), a public entity risk pool organized on July 1, 1992 to develop, implement, and administer a program of workers' compensation self-insurance for its member organizations. The District pays an annual premium to the Fund for its general insurance coverage. Additional insurance coverage is provided through an agreement by the Fund with Safety National to provide coverage for potential losses sustained by the Fund in excess of \$100,000 loss per occurrence, up to the statutory limit.

The District has purchased surety bonds to provide additional insurance coverage as follows:

| Position covered | Amount |
|---------------------|---------------|
| Superintendent | \$ 100,000 |
| All other employees | 100,000 |

NOTE 11. COMMITMENTS AND CONTINGENCIES

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audits and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing grants, refunds of any money received may be required and the collectibility of any related receivable at June 30, 2020 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the financial statements for such contingencies.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Georgia School Employees Postemployment Benefit Fund

Plan Description. The District participates in the State of Georgia School Employees Postemployment Benefit Fund (the School OPEB Fund) which is an other postemployment benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the District as defined in §20-2-875 of the Official Code of Georgia Annotated (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Comprehensive Annual Financial Report which is publicly available and can be obtained at https://sao.georgia.gov/comprehensive-annual-financial-reports.

Benefits. The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Georgia School Employees Postemployment Benefit Fund (Continued)

Contributions. As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the District were \$1,315,758 for the fiscal year ended June 30, 2020. Active employees are not required to contribute to the School OPEB Fund.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$45,425,224 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2018. An expected net OPEB liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net OPEB liability was actuarially determined based on employer contributions to the State OPEB Fund during the fiscal year ended June 30, 2019. At June 30 2019, the District's proportion was 0.370149%, which was an increase of 0.007265% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized OPEB expense of \$1,722,575. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | of Resources | | |
|-----------------|----------------------------------|---|--|
| | | | |
| \$ 3,009,534 | \$ | - | |
| - | | 4,941,792 | |
| 1,577,529 | | 6,403,523 | |
| | | | |
| 98,922 | | - | |
| 1,315,758 | | - | |
| \$ 6,001,743 | \$ | 11,345,315 | |
| of | 1,577,529 98,922 1,315,758 | \$ 3,009,534 \$ 1,577,529 \$ 98,922 1,315,758 | |

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

District contributions subsequent to the measurement date of \$1,315,758 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal year ending June 30:

| 2021 | \$ (1,527,828) |
|-------|-------------------|
| 2020 | (1,527,828) |
| 2023 | (1,531,630) |
| 2024 | (1,286,902) |
| 2025 | (648,684) |
| 2026 | (136,458) |
| Total | \$ (6,659,330) |

Actuarial assumptions:

The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2019:

| Inflation | 2.50% |
|-----------------------------------|---|
| Salary increases | TRS - $3.00 - 8.75\%$, including inflation |
| | PSERS - N/A |
| Long-term expected rate of return | 7.30%, compounded annually, net of investment |
| | expense, and including inflation |
| Municipal Bond Index Rate | 3.58% |
| Healthcare cost trend rate: | |
| Pre-Medicare Eligible | 7.25% |
| Medicare Eligible | 5.375% |
| Ultimate trend rate | |
| Pre-Medicare Eligible | 4.75% |
| Medicare Eligible | 4.75% |
| Year of Ultimate trend rate | |
| Pre-Medicare Eligible | 2028 |
| Medicare Eligible | 2022 |
| | |

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For TRS Members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 1 year for males) was used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 2 years for males and four years for females) was used for death after disability retirement.
- For PSERS Members: The RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) was used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the pension systems, which covered the five-year period ending June 30, 2014, which covered the five-year period ending June 30, 2014, and adopted by the pension Board on December 17, 2015. The next experience study for TRS will be for the period ending June 30, 2018.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

Additionally, there was a change that affected measurement of the total OPEB liability since the prior measurement date. The methodology used to determine employee and retiree participation in the School OPEB Fund is based on their current or last employer payroll location. Current and former employees of public school districts, libraries, regional educational service agencies, and community colleges are allocated to the School OPEB Fund irrespective of retirement system affiliation.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|------------------------------|-------------------|---|
| Fixed Income | 30.00% | - 0.10% |
| Domestic Stocks – Large Cap | 46.20% | 8.90% |
| Domestic Stocks - Small Cap | 1.30% | 13.20% |
| Int'l Stocks – Developed Mkt | 12.40% | 8.90% |
| Int'l Stocks – Emerging Mkt | 5.10% | 10.90% |
| Alternatives | 5.00% | 12.00% |
| Total | 100.00% | |

Discount rate:

The discount rate has changed since the prior measurement date from 3.87% to 3.58%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20 year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.5% per the Bond Buyer Index). The projection of cash flows used to determine the discount rate assumed that the current sharing of costs between the employer and the member will continue and that contributions from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2119. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2026. Therefore, the long-term expected rate of return on OPEB plan investments was applied to discount projected benefit payments until 2026. The discount rate of 3.58% was the single rate which, when applied to all projected benefit payments, resulted in the same present value of benefit payments when the above discussed calculations are combined. The calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate:

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.58%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1-percentage-point higher (4.58%) than the current rate:

| | | 1% | | Current | 1% |
|---------------------------------------|----|------------------|----|-----------------------|------------------|
| | | Decrease (2.58%) | | discount rate (3.58%) | Increase (4.58%) |
| District's proportionate share of the | - | | | | |
| net OPEB liability | \$ | 52,799,103 | \$ | 45,425,224 | \$ 39,426,904 |

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rates of 4.75% to 7.25%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (3.75% to 6.25%) or 1-percentage-point higher (5.75% to 8.25%) than the current rates:

| | | 1% | | Current | | 1% |
|---------------------------------------|----|---------------------------|----|-----------------------------------|----|---------------------------|
| | (3 | Decrease (3.75% to 6.25%) | | discount rate (4.75% to 7.25%) | | Increase (5.75% to 8.25%) |
| District's proportionate share of the | | | | | | |
| net OPEB liability | \$ | 38,265,938 | \$ | 45,425,224 | \$ | 54,518,060 |

NOTE 13. ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of \$91,113 for retirement contributions paid on the School District's behalf by the following State Agencies:

Georgia Department of Education paid to the Teachers Retirement District for Teachers Retirement (TRS) in the amount of \$10,260.

State Treasurer of the State of Georgia paid to the Public School Employees Retirement System for the Public School Employees Retirement (PSERS) employer's cost in the amount of \$80,853.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION TEACHERS RETIREMENT SYSTEM (TRS)

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables from the 1994 Group Annuity Mortality Table. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. On November 18, 2015 the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males). Effective with the June 30, 2018 valuation, the long-term assumed rate of return on assets (discount rate) was changed from 7.50% to 7.25%, and the assumed annual rate of inflation was changed from 2.75% to 2.50%.

Method and assumptions used in calculations of actuarially determined contributions: The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two (2) years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Valuation date June 30, 2018
Actuarial cost method Entry age

Amortization method Level percentage of payroll, open

Remaining amortization period 28.0 years

Asset valuation method Five-year smoothed market

Inflation rate 2.50%

Salary increases 3.00 - 8.75%, including inflation.

Investment Rate of Return 7.25%, net of pension plan investment expense including inflation.

Postretirement Benefit Increases 1.50% semi-annually

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PUBLIC SCHOOLS EMPLOYEES RETIREMENT SYSTEM (PSERS)

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHOOL OPEB FUND

Changes of benefit terms: In the June 2010 actuarial valuation, there was a change in benefit terms to require Medicare-eligible recipients to enroll in a Medicare Advantage plan to receive the State subsidy.

Changes in assumptions: In the revised June 30, 2017 actuarial valuation, there was a change relating to employee allocation. Employees were previously allocated based on their Retirement System membership, and currently employees are allocated based on their current employer payroll location.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the Retirement Systems' experience studies.

2028 2022

In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions were changed.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Superintendent and Members of the City of Decatur Board of Education Decatur, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Decatur Board of Education, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Decatur Board of Education's basic financial statements, and have issued our report thereon dated February 23, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Decatur Board of Education's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Decatur Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Decatur Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Decatur Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Superintendent and Members of the City of Decatur Board of Education Decatur, Georgia

Report on Compliance for Each Major Federal Program

We have audited the City of Decatur Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Decatur Board of Education's major federal programs for the fiscal year ended June 30, 2020. The City of Decatur Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Decatur Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Decatur Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Decatur Board of Education's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Decatur Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the City of Decatur Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Decatur Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Decatur Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards includes the federal grant activity of the District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

The District did not utilize the 10% de minimus indirect cost rate permitted by the Uniform Guidance.

The District did not provide Federal Assistance to any Subrecipient.
